

Authorized Equipment List

<u>AEL Number</u>	<u>Description of Item to be Purchased</u>	<u>Vulnerability to be Addressed (per FEMA Website)</u>	<u>Examples of Items to Purchase</u>	<u>Sample Language for Grants</u>
14SW-01-ALRM	Systems/Sensors/Alarm	Systems and stand-alone sensors designed to detect access violations or intrusions using sensors such as door/window switches, motion sensors, acoustic sensors, seismic, and thermal sensors.	Alarm systems	Notification of potential intruder on premises.
14SW-01-DOOR	Doors and Gates, Impact Resistant	Reinforced doors and gates with increased resistance to external impact for increased physical security	Reinforced doors, Gates, Parking Lot protection	Increase perimeter protection to prevent access to building.
14SW-01-LITE	Lighting, Area, Fixed	Fixed high-intensity lighting systems for improved visibility in areas such as building perimeters and surveillance zones.	Lighting	Aid in visual identification of potential intruder and eliminate potential hiding places on premises.
14SW-01-PACS	System, Physical Access Control	Locking devices and entry systems for control of physical access to facilities.	Access Control System to monitor entry into building	Prevent intruder from entering facility.
14SW-01-SIDP	Systems, Personnel Identification	Systems for positive identification of personnel for entering restricted areas or accessing information systems.	Key fobs	Enable access to facility/restricted areas by approved individuals.
14SW-01-VIDA	Systems, Video Assessment, Security	Camera-based security systems utilizing standard, low light, or infrared technology.	Video monitoring systems, cameras	Visual monitoring and recording of activity on campus. Images can be shared with law enforcement in event of unauthorized activity on premises.
14SW-01-WALL	Barriers: Fences; Jersey Walls	Obstacles Designed to channel or halt pedestrian or vehicle-born traffic in order to protect a physical asset or facility.	Bollards, Fencing, Walls	Prevent vehicular assaults to the building and/or pedestrians near the building.
14EX-00-BSIR	Systems, Building, Blast/Shock/Impact Resistant	Systems to mitigate damage from blasts, shocks or impacts, such as column and surface wraps, wall coverings, breakage/shatter resistant glass, window wraps, and deflection shields	Protective window film	Minimize physical injury and damage to facility from gunshots, blasts, or impacts.
