

The Honorable John Fetterman  
United States Senate  
Washington, DC 20510

Dear Senator Fetterman,

As a member of the Pittsburgh Jewish community, I want to express my heartfelt gratitude for your stance against the recently proposed antisemitic referendum that would prevent the City of Pittsburgh from doing business with entities that do business with Israel. Your outspoken support in condemning this harmful initiative has not only uplifted our community but has also set a powerful example of leadership in the face of hatred.

Your commitment to standing up against antisemitism and supporting the Jewish community is deeply appreciated. Given the potential damage this initiative could do to our synagogues and Jewish institutions, I appreciate that you have taken steps to protect the values of tolerance and justice.

Thank you for continuing to be an ally in this important fight. We are grateful for your leadership.

Sincerely,
